ServSafe® - What You Should Know

The Kentucky Restaurant Association offers ServSafe® classes that cover a wide range of proper food handling material. This class is essential if you want your staff to be educated on the proper way to receive, store, prepare and serve food as well as the repercussions of serving improperly prepared food to customers.

ServSafe® is a program that provides accurate, up-to-date information for all levels of employees. We know your time is valuable so we have designed a course to last a single day. ServSafe® has become the industry standard in food-safety training and is *recognized in all United States jurisdictions* requiring employee certification. We strongly encourage you and your staff to participate in this informative class. In most Kentucky jurisdictions, the Health Department requires one person per shift be certified in safe food handling.

The Kentucky Restaurant Association offers ServSafe® classes throughout the state of Kentucky. We would be more than happy to tailor a program for your staff in your restaurant and at your convenience.

ServSafe Alcohol® - Serve Responsibly

The Kentucky Restaurant Association offers ServSafe Alcohol®, which is a class that helps you and your co-workers responsibly serve beverage alcohol to your guests. Responsible beverage alcohol service safeguards your guests, your community, yourself, your co-workers and your establishment by reducing drunk driving crashes and other injuries related to alcohol beverage over-consumption. By becoming informed about responsible beverage alcohol service policies, you can provide your guests with excellent service and then reap the benefits while promoting and encouraging responsible alcoholic consumption.

The class is divided into 4 sections: Liability Case Study and Beverage Laws, How Alcohol Affects the Body, The Law and Your Responsibility, Techniques for Responsible Beverage Alcohol Service and Service in Difficult Situations. A question and answer session will follow each section and a test will be given at the conclusion. Once the tests have been graded, a Certificate of Completion will be mailed to the individual.

The Kentucky Restaurant Association offers ServSafe Alcohol® classes throughout the state of Kentucky. We would be more than happy to tailor a program for your staff in your restaurant and at your convenience.
